

ASITM PIT SLAMMERS

ASI Pit Slammers are designed to slip into the slatted floors of deep and shallow pit buildings, and are now available in an easy to use time-release block.

- *ASI's scientifically researched time-release formulation digests organic wastes naturally and effectively.*
- *Naturally-occurring. Non-engineered.*
- *Reduces pit crusting.*
- *Highly motile.*
- *Reduces odor-causing components.*
- *Positive chemotaxis*
- *Liquifies solids for easier and more efficient pumping.*
- *100% stabilized bacterial spores.*
- *Allows for consistent treatment in pits and lagoons.*
