

ASI Pit Hammer is a unique blend of naturally occurring bacteria and essential oils combined for the degradation of organic solids, odor control and effective insect management. Each gallon of ASI Pit Hammer contains millions of safe, non-pathogenic bacteria that digest and liquify solids and reduce odor emissions, such as ammonia and hydrogen sulfide. Citronella oil has been added into this unique blend to shield treated areas against insect infestation.

Directions for Use

SHAKE WELL BEFORE USING!

For Shallow Pit Buildings

Gestation/Farrowing
1/4 Gallon
Per/250 Sows/Per-Pit/Per-Week
